## NATIVE AMERICANS FOR COMMUNITY ACTION

Native American Vendor Project  
sponsored by Native Americans for  
Community Action in Cooperation  
with the Coconino National Forest.

The mission of Native Americans for Community Action Inc. (NACA) is to provide human and health services to individuals and families in a culturally appropriate manner emphasizing advocacy, harmony, respect, and cooperation in all working relationships, and community involvement at all levels

NACA, in partnership with the Coconino National Forest, has successfully managed the Oak Creek Vista Overlook site since 1988. This unique relationship allows economic opportunities for Native American crafts people and provides thousands of visitors with spectacular views and the experience of meeting and buying directly from Native Americans. Many Native Americans rely solely on the selling of their crafts as their primary income.

The management by NACA and the participation of Native American crafts people assures visitors authentic crafts.

The Oak Creek Vista Overlook is open daily year round. The hours of operation vary, based on the season of the year.

NACA funding is received through grant and contract opportunities awarded by federal, state, local and private sectors. Due to continual cut backs and budget restraints, NACA strives to diversify it's funding base by forming partnerships, alliances and through individual donations. If you would like more information on our organization and how you can help please contact our offices in Flagstaff, Arizona. NACA is a 501(c)(3) non-profit organization, incorporated in the state of Arizona. Donations made to the organization can be tax deductible.
